SINGLE SELECT

ULTRA-PREMIUM SHAKES & SCALLOPS

*Luxury  
for Everyday  
Living.*

## EXPERTLY CRAFTED FOR ENDURING STRENGTH

Elegant yet strong, Harbor Pointe Single Select Shakes & Scallops feature a powerfully built profile design to achieve a superior finish for your home. Their strength begins with performance-engineered polypropylene construction, reinforced with a storm rail on each side of the nailing hem. A specially designed locking system provides added stability while securing the siding panels together for a durable, weathertight exterior.

## DESIGN INNOVATIONS

Harbor Pointe Single Select transforms the beauty of genuine cedar into a premium siding that's unrivaled in richness and quality. While its timeless style may captivate your attention, it's also important to understand the structural upgrades that elevate Harbor Pointe Single Select to a class of its own.

### Integrated Panel Locking System

This innovative, patent-pending design locks panels firmly together for increased strength and structural integrity, as well as a more uniform finished look.

### Optimal Installation Guides

Self-aligning nail slots and a temperature chart on the side tab help ensure that each panel is properly positioned for optimal expansion and contraction in all weather.

### Self-Concealing Side Tabs

The self-concealing side tabs feature the same cedargrain detail as the panel to hide seams where panels are joined—creating a beautiful, handcrafted effect and a virtually seamless appearance.

### Extended Panel Length

Approximately 40% longer than typical shake and scallop profiles, Harbor Pointe Single Select's 6'8" extended length achieves long, uninterrupted lines for a smoother finish.

### Variety of Mold Patterns

An expanded variety of shake molds creates a random, natural-looking appearance just like actual cedar.

### Built Hurricane-Tough!

In independent laboratory tests, Harbor Pointe Single Select remained secure in Category 5 hurricane-velocity winds.

### Environmentally Friendly

Harbor Pointe Single Select Shakes & Scallops help conserve wood and other natural resources used in home construction. And because they never need to be painted, they also help prevent paint, stain and other maintenance-related products from harming the earth.

*The beauty of nature and  
the power of technology.* In Harbor Pointe

Single Select, you've discovered something exceptional for your home. This elegant, natural-looking exterior combines the distinctive warmth and appeal of genuine shakes and scallops with the high-performance properties of polymer technology.

With exquisite detail, Harbor Pointe Single Select features substantial design enhancements that distinguish it from ordinary shake siding. The single-row course, varied mold patterns and extended panel lengths together accomplish a markedly superior finished look—beautifully capturing the inviting ambiance of natural, handcrafted wood.

### BUILT FOR TODAY'S LIFESTYLE

Harbor Pointe Single Select Shakes & Scallops are designed with easy upkeep in mind. The performance-engineered polypropylene construction is virtually unaffected by exposure to summer heat, pounding rain or frigid cold temperatures. Unlike wood, Harbor Pointe Single Select won't warp, rot, split, cut or twist, so there's no need for time-consuming maintenance. Just a simple rinse with a garden hose will remove most airborne dust and dirt, keeping your home looking fresh and new.

### INVESTING IN CURB APPEAL

Like many people, your home may be your most important investment, as well as a great source of pleasure and pride. Harbor Pointe Single Select's easy upkeep and attractive appearance can enhance the curb appeal of your home while improving its overall value.

### SIDING WITH PERFECTION

Perfection? It's never too much to ask. Our Color Clear Through® system makes it easy to find the perfect color match for your exterior design. This exclusive selection of customer-preferred colors ensures that all Revere products—siding, soffit, fascia, trim and rainware—will beautifully match throughout our vinyl, aluminum and steel product lines.

### BE INSPIRED

Something happens when beautiful colors, inviting texture and personal chemistry mix. A home develops character, a sense of style that reflects the conversations at the breakfast table, the together time at the end of the day or the spirited hours in between. From warm and classic to casual and contemporary—your home is all about you.

Our richly detailed shakes and scallops  
will give your home a warm and welcoming feel.

*Timeless*

#### TRADITIONAL SHAKE

From rustic to refined, our Traditional Shake makes an impressive statement of style. The generous 7" exposure, deep woodgrain texture, and authentic hand-cut appearance gently blend modern practicality with the simplicity and grace of coastal living.

#### SCALLOP

Picturesque beautifully conveys the essence of our Scallops. Each row of artistically sculpted scallops creates a uniform, elegant appearance, further accentuated by a generous shadow line for added dimension. The ample 6-1/4" exposure and roughsawn texture will give your home the distinctive allure of cedar half-rounds.

#### CAPE COD SHINGLE

From the very first glance, the uniform woodgrain texture and clean-line design of our Cape Cod Shingles call to mind the casual charm of seaside homes dotting the New England shoreline. Handsomely crafted in a 5" double-course Cape Cod profile, the siding expertly pairs timeless style with a higher level of craftsmanship and quality.

#### HAND-SPLIT SHAKE

A standout selection for both its historical beauty and natural appeal, our Hand-Split Shake lends visual interest to any style home. This faithful reproduction features rough-cut edges and a deeply grained, random texture in a 9" profile for the perfect balance of style and substance.
